Living a different adventure...

Can you imagine climbing the Pacaya Volcano and tasting a delicious pizza created at the moment? This is what Pizza Pacaya is looking for, as an activity that allows you to live an experience in which a pizza is baked especially for you right there. It amazes anyone who can see how it takes advantage of natural volcanic vapors. Thanks to the heat of this space, a pizza is ready in just 15 minutes or less. We're sure you'll feel like it!
